Dear Sir:

In the Notice of Allowability accompanying the Notice of Allowance dated August 9, 2004, a Statement of Reasons for Allowance was provided. The Examiner's Statement indicates that the prior art fail to teach or suggest that the first and second arms are rotatable about an axis which is substantially parallel to the facing planar surfaces of the flanged fittings, as required by claims 6 and 30." Applicants agree that the prior art fails to teach or make obvious these claimed features. Moreover, Applicants wish to clarify that the art also fails to teach or make obvious the claimed self-aligning coupling of independent claims 6 and 30 and those claims dependent therefrom.

These Comments are submitted in order to clarify the Examiner's Statement of Reasons for Allowance. Entry is therefore believed to be in order and is respectfully

requested. Please charge any fee required in connection with this paper to Deposit Account  
No. 04-1133.
